1 Basic concepts

1.1 requirements for navigation stack

1.1.1 Map

- **map**- representation of environment created from sensor readings

```
        print(hello)
```

```
          wget www.google.com
```

```
1         #include<stdio.h>
2
```

2 hello
